SUMMARY

I am seeking a challenging and rewarding opportunity with an organization of repute that recognizes my true potential and effectively utilizes/nurtures my excellent analytical and technical skills in the IT industry Software.

TECHNICAL SKILLS

- **Frontend**- JavaScript, React.js, TypeScript, Material UI, Tailwind CSS, Sass CSS.
- **Backend-** Nodejs, ExpressJs, Typescript
- **Database -** MongoDB, MySQL, PostgreSQL

EXPERIENCE

Cloudsufi | Noida
Associate Consultant | 07/2022 - 01/2024
FSD (full stack developer) -

- Led the design and development efforts for a cutting-edge healthcare application, focusing on enhancing user experience and functionality.
- Designed and implemented user interfaces using modern design principles and frameworks.
- Conducted rigorous testing, including unit testing and user acceptance testing, to identify and resolve bugs and usability issues effectively.
- Expertise in AppSheet with AppleScript, enabling seamless integration with Google's ecosystem, including Gmail, Google Sheets, and Google Docs.
- Proficient in integrating data from 3rd Party SaaS applications such as JIRA and GIT, utilizing APIs and webhooks to extract, transform, and load data for actionable insights and decision-making.

Cloudsufi | Noida
Trainee | 01/2022 - 07/2022
ReactJs Trainee

- Expertise in AppSheet with AppleScript, enabling seamless integration with Google's ecosystem, including Gmail, Google Sheets, and Google Docs.

- Proficient in integrating data from 3rd Party SaaS applications such as JIRA and GIT, utilizing APIs and webhooks to extract, transform, and load data for actionable insights and decision-making.

PROJECTS

Pinterest Clone: Crafted an advanced web platform using Node.js, React, and Tailwind CSS. Enabled secure user login for seamless photo uploads and a dynamic feed display. **Link**

FoodRecipy: The website is built using React JS, a popular JavaScript library for building user interfaces. One of the key features of FoodRecipy is the ability to filter recipes by calorie count. This is achieved using a custom filtering system that allows users to select their desired calorie range and view only recipes that fall within that range. **Link**

Wedding Website: Engineered and maintained the company website with TypeScript and React, delivering a robust and professional user interface. Implemented secure admin login for seamless photo uploads, ensuring efficient administrative functionality. **Link**

CERTIFICATE
